

**My instructions for finishing the purse** by *Janice Henning*

Use the Viking instructions and then maybe these pictures will help with finishing the purse.

Pull lining and purse apart so right sides of lining are together and right sides of purse are together.

Fold the bottom of the purse where the little marking stitches are and the bottom seam should be on the other set of little marking stitches by the decorated flap that overlaps the purse.

Sew the purse seams from the fold ends to the flap and stop and secure stitches.

Sew the lining seam on one side from the fold to the flap and stop and secure stitches.

Sew the other side of the lining but leave about 2 ½" at the bottom of the seam for turning inside out.

Push lining and purse through the hole to turn it inside out.

Push lining into purse side and hand stitch opening.
